The Future of the Composites Industry Takes Shape in Istanbul

The Eurasian Composites Show, the most comprehensive gathering of the composites world in Eurasia, opens its doors at the Istanbul Expo Center on November 24-26, 2027.

Having broken records in 2025 by hosting 7,060 professional visitors from 83 countries and 245 exhibitor companies, the exhibition once again proved that Türkiye is a regional production and technology base. Positioned at the center of sustainable production, advanced material technologies, and circular economy solutions, this major event brings the global leaders of the sector together in Istanbul.

From raw material suppliers to end-product manufacturers, and from R&D centers to machinery technologies, all industry stakeholders are gathering once again in 2027 for new collaborations, export opportunities, and global trade connections.

WHY EXHIBIT?

Global Market Access: Boost your export potential with thousands of professional visitors from 83 different countries.

High Satisfaction: Secure your spot on a proven platform where 91% of exhibitors plan to participate again.

Innovation Showcase: Present your latest products and technologies directly to decision-makers through the "End Product Area" and technical conferences.

Competitive Advantage: Strengthen your brand awareness and stay one step ahead of your competitors at this meeting point for global industry leaders.

RESULTS KEEPING THE PULSE OF THE INDUSTRY
