THE HEART OF THE CHEMICAL INDUSTRY BEAT HERE!

The star of exports, the chemical industry, came together at Turkchem Eurasia and Interdye Textile & Printing Eurasia exhibitions! Representing the colossal \$5.72 trillion global chemical industry, these two major exhibitions brought together innovative products, technologies, and business opportunities under one roof.

Over the course of three days, our exhibitions hosted a total of 13,897 industry professionals, once again showcasing the sheer scale of the chemical industry. Notably, 32% of these visitors were international professionals, with 4,447 foreign visitors coming from countries like Russia, Iran, Pakistan, Uzbekistan, the Middle East, and Eastern Europe, reaffirming the exhibitions' strong influence on the international stage.

Turkchem Eurasia and Interdye Textile & Printing Eurasia were not only platforms for commercial connections but also arenas where the future of the industry was shaped through key panels and presentations. These events showcased technological innovations, fostered strong collaborations, and shared visionary ideas, pushing the boundaries of the chemical sector even further. This achievement once again proudly underscores the power of the chemical industry and the vital role our exhibitions play in supporting its growth.

Turkchem Stage

The Stage of the Chemical Industry

This year, the Turkchem Stage Conference Area stood out as a unique knowledge-sharing platform, shedding light on the future of the chemical industry. Over the course of three days, our expert moderators and panelists inspired industry professionals with visionary ideas and strategic insights. The present, future, and global transformation processes of the chemical industry were conveyed to the audience through in-depth discussions and striking analyses.

With a packed program running from the first to the last day, a total of 8 panels focused on the industry's most critical issues, including:

- Chemical Value Chain: Today and Tomorrow supported by FECC
- The Role of Oil in Energy Transition: Towards a Carbon-Free Future supported by Ikarus Consultancy
- R&D and Green Support in the Chemical Industry supported by Co2Notr
- The Present and Global Position of the Turkish Chemical Industry supported by TKSD
- The Effects of the Green Deal on the Textile Chemical Industry supported by TIHCAD
- Chemical Logistics in Turkey supported by LİKİTDER
- Fire, Explosion, and Process Safety in Industrial Facilities supported by KMO
- Consumer Behaviors in Cosmetics supported by KÜAD

These carefully curated panels addressed the opportunities and challenges facing the chemical industry, drawing attention to Turkey's strategic role in the sector as well as global development areas.

SILENT PRESENTATION AREA

Sustainability has become more important than ever for our exhibitions and the chemical industry. In this regard, we took meaningful and innovative steps this year in collaboration with our sustainability partner, Co2Nötr, highlighting an eco-friendly approach. With these green initiatives, a world-first in the exhibition industry, we strengthened our mission to organize environmentally conscious events while raising awareness.

One of the innovative steps we took for sustainability was the creation of the Co2Nötr Silent Presentation Area at our exhibition. Designed to allow visitors to gain knowledge in an environmentally sensitive space while enjoying a high-quality experience, this area minimized noise pollution and provided an effective knowledge-sharing platform.

A total of 11 presentations were held in the Silent Presentation Area, bringing together visitors and expert speakers. This unique platform covered critical topics such as R&D, green support, and chemical process industries, shaping the future of the chemical sector. Thanks to the headphone system, visitors enjoyed a high-quality presentation experience, listening to talks with complete focus while being unaffected by surrounding noises.

TURKCHEM

Gala Night

Unforgettable Moments and an Evening Full of Fun

One of the most special events of our exhibition, the Gala Night, took place in an incredible atmosphere that brought the industry together. Our exhibitors and visitors witnessed a delightful and unforgettable evening after a busy day. The night kicked off with the energetic performance of the Efes Band Orchestra, who entertained guests with their unique repertoire and dynamic stage presence. The rhythmic melodies and lively atmosphere became one of the unforgettable moments of the night.

Throughout the evening, our sponsor Feel Real added a special touch to the event by providing a unique beverage experience. The delicious offerings made the Gala Night even more memorable for the participants.

Beyond just an entertainment event, the Gala Night became a meeting point that strengthened friendships within the industry and paved the way for new collaborations. We thank everyone who joined us and made this unforgettable evening part of our exhibition!

This is the first exhibition we have participated in Turkey. Overall, we are quite satisfied. The number and quality of participants are quite good. We are confident that the work we do after the exhibition will yield positive results. Here, instead of selling equipment, we carry out turnkey projects, and we believe that the promotional activities we conduct here will generate demands afterward.

We have seen the presence of our partners and investors as well. Based on the experience we have gained here, we are highly likely to participate in the Turkchem 2026 exhibition.
