## Don't just take our word! Hear from those who were there.

We are very satisfied with the progress of the exhibition. In fact, we are one of its founding participants and are attending for the 10th time. For us, this is a prestigious exhibition of Turkey. We have a presence in Turkey spanning over 40 years, and our customers come specifically here to find us. We are also extremely pleased with the international participation. Our spot for the Turkchem 2026 exhibition will be secured in the same way.

ANDRE YANÇO  
METROHM TURKEY  
GENERAL DIRECTOR

We have participated in the Turkchem exhibition in previous years as well. We are very satisfied with this year's exhibition too. We are currently engaging with our existing customers and have also added new clients to our portfolio. Our operations span both domestic and international markets, with higher demand coming from the domestic market. We are eager to reserve our spot for the Turkchem 2026 exhibition.

AKİF KARAÇOR  
TEZKİM TARIMSAL KİMYA SAN. TİC. A.Ş.  
DOMESTIC SALES MANAGER

re-exhibit?

## Why EXHIBIT?

All segments of the chemical industry meets with professionals from all over the world.

Direct face-to-face access to decision-makers, suppliers, manufacturers, and investors from around the world.

Expand your exports with a wide visitor network from Eurasia, the Middle East, Africa, and Europe.

Showcase innovative products, breakthrough technologies, and sustainable solutions that set new trends.

# So imagine what will happen in 2026!

## Exhibitor Profile

### Chemicals

- Commodity Products
- Chemical Intermediates
- Agricultural Chemicals and Additives
- Bio-Based Chemicals
- Organic Chemicals
- Inorganic Chemicals
- Specialty Chemicals
- Petrochemicals
- Catalysts
- Electronic Chemicals
- Explosive Chemicals
- Water Treatment Chemicals
- Specific Chemicals
- Textile Chemicals and Dyes
- Waxes, Resins, Silicones
- Peptides and Proteins
- Mining Chemicals
- Industrial Chemicals
- Industrial Oils and Chemicals
- Plastic Additives
- General Chemicals
- Green Chemicals
- Construction Chemicals and Raw Materials
- Other Chemicals

### Laboratory and Production Technologies

- Basic Laboratory Instruments
- Laboratory Technologies
- Measurement, Testing, and Analysis Technologies
- Automation and Control Systems
- Packaging and Packing Systems
- Process Equipment
- Environmental Health and Safety
- Facility Equipment
- Processing Technologies
- Hardware and E-Commerce
- Industry and Occupational Safety
- Other

### Services

- Research and Development Services
- Laboratory, Measurement, Analysis, and Testing Services
- Documentation and Quality Control Services
- Recycling Services
- Supply Chain Services
- Logistics and Distribution Services
- Consulting Services
- REACH Services
- Software Services
- Production and Financial Services

## Visitor Profile

- Chemical Manufacturers
- Distributors and Suppliers
- Packaging Industry
- Biotechnology
- Paints and Coatings
- Storage and Logistics
- Electronics
- Industrial Oils and Gases
- Household and Industrial Cleaning
- Contract Manufacturing
- Food and Beverage
- Pharmaceuticals
- Pulp and Paper
- Cosmetics and Personal Care
- Petrochemicals
- Plastics and Rubber
- Colorants and Pigments
- Ceramics, Glass, Enamels
- Water Treatment
- Agriculture
- Textile and Leather
- Textile and Leather Chemicals
- Soil Products and Mining
- Construction Chemicals and Adhesives
- Environmental and Occupational Safety Sector
- Laboratory Equipment and Instrument Manufacturers
- Process Technologies
- Research and Development
- Universities and Public Institutions
- Others
