“

It was a highly dynamic and productive event that truly captured the pulse of the coatings industry. Seeing so many professionals from around the world come together in one place was truly impressive.

The Turkish market is strategically important for us, and the connections we made here hold great potential for future collaborations.

“

It was great to see so many distributors and manufacturing companies at the fair. I was very surprised by the number of participants and visitors. There was a high level of activity. Crowds began forming right after the fair opened on the first day. Therefore, I invited my contacts who had not yet attended the fair.

The fair organization supported us a lot, for which we are very grateful. Actually, it is a pleasure to be able to sustain and see the business that should be in Turkey's context.
